

LICENSING & LICENSE MANAGER

INSTALLATION FOLDER

At <https://cloud.fee.de/index.php/s/i797jRqs81VMPSI> you can find the current setup of fe.screen-sim.

LICENSING

1. Please open the “**License Manager**” first, which you can find on the desktop or in the installation folder after the setup installation.
2. A **login window** will then open, here you can switch the language using the **drop-down menu** at the top right.
3. Now enter the **e-mail address** of the corresponding user, which you have already sent in advance – together with your first and last name – to the address `fescreen-sim@fee.de`.
4. Then click on “**Reset password**” to request a password or to reset it. Subsequently, you will receive an e-mail with a link to assign or reset your password. Please follow this link and assign the password. If you do not receive an e-mail, please check if the e-mail with the sender `noreply@fesimlic.firebaseio.com` is in your spam folder.
5. After entering the e-mail address and password, you can log into the system via “**Login**”.
6. The “**Licenses**” window opens.
7. In the table “**Firm Licenses**” on the right side, all available licenses are displayed. Please note that it is necessary to remain logged in to the system to use fe.screen-sim, otherwise no licenses will be found.
8. Now it is possible to copy the required licenses via “**Drag-and-Drop**” to the left into the folder “**User Licenses**”.
